

ZIKOO ROBOTICS

Leader of Pallet-to-Person Robotics

Leader of Pallet-to-Person Robotics

Founded in 2017, Zikoo Smart Technology Co., Ltd. is a global leader in pallet-to-person robotics, with a focus on the research, design, production, and delivery of “pallet-to-person” robots. It boasts comprehensive research and development capabilities across the entire value chain, encompassing the robot body, business systems, core algorithms, and delivery systems. The company has launched a variety of pallet warehouse robots and smart warehouse software. The robot lineup includes U-bot Omnidirectional Stacker Robots, R-bot Four-Way Pallet Shuttle, and H-bot High-Speed Elevators, among others. The software system features the PTP Smart Warehouse Software (IWMS/IWCS/RMS).

Zikoo's global headquarters, along with its research and development center, are based in Nanjing, China, while its manufacturing hub is situated in Zhangjiagang, Suzhou, China. The company also runs localized sales, operations, and service centers in various regions within China and around the world. By far, Zikoo has successfully implemented over 400 projects globally. Our products and solutions have been widely used across various industries and in diverse scenarios, such as power, cold chain, new energy, food, 3PL, precision manufacturing, pharmaceuticals, and home furnishings.

Our Vision

Improve your warehouse with smart technologies and take the lead in industrial automation

Core Values

Put the needs of the customers first and focus on nurturing talent

Give priority to important matters and always start with your ultimate goal in mind

Be responsible, open, and honest

Accolades

CE Mark Certification

ISO9001 / ISO14001

ISO management system certification

High-tech Enterprise

"Little Giant" Enterprise Award

Member of the Mobile Robot and AGV/AMR Industry Alliance

The First Prize winner in the National Logistics Robot Intelligence Competition

Logistics Technology Award

Winner of Innovative Application of China Logistics Technology Award

Software Capability Maturity CMMI Level 3

江苏省工业和信息化厅

Smart Shuttle, an Innovative Product

Annual Logistics Technology Innovation Case of 2022

Golden Globe Award Innovation Technology Award

Annual Most Innovative Company in Supply Chain & Logistics Technology

The Most Popular Technological Innovation of the Golden Ant Award

Outstanding Case of Supply Chain Logistics in Manufacturing Sector
